

SUPPLY CHAIN MANAGEMENT

2004

A SENIOR EXECUTIVE FORUM

DISTINGUISHED FACULTY

Justine Carr, MD
Joseph F. Sheil, Jr.

Beth Israel Deaconess Medical Center

Dr. Carr, *Director Clinical Resource Management*, coordinates clinician/administration collaboration for judicious, evidence-based use of resources. □ Mr. Sheil, *Director of Contracting*, has developed and managed corporate and public/private sector alliances to deliver service, solutions and supply chain savings across the U.S. and Canada.

Renee Landry, CMRP, FAHRMM
Ed Hisscock

Washington Hospital Center

Past president of ARHMM and a Gossett Leadership award winner, Ms. Landry, *VP of Support Services*, lectures extensively on supply chain topics. □ Mr. Hisscock, *AVP of Materials Management*, brings supply chain and IT experience with Fortune 500, and health care supplier and provider organizations to this Washington, D.C.-based 900-bed, level IV trauma center.

James R. Francis, FACHE

Chief Materials Officer
Mayo Foundation

Nationally recognized among peers and the trade press, Mr. Francis is responsible for overall supply chain management strategy for the Mayo Clinic and Foundation and a budget of \$1.2 billion for supplies and services for 18 Mayo Clinic hospitals.

William R. Grimes III

Manager for MMIS
Dartmouth-Hitchcock

As IT Manager responsible for MMIS, Mr. Grimes is an industry leader in the implementation of wireless technology for hospital inventory management — reducing inventory at DHMC by 35 percent and inventory costs by about 50 percent.

2004

A SENIOR EXECUTIVE FORUM

We invite you to join us at "Supply Chain Management 2004"

Tuesday, May 4, 2004 at the Marriott Burlington Hotel, Burlington, Massachusetts

Classroom size, executive education from an objective source. Supply Chain Management has left a trail of broken promises and unmet expectations, yet the experience gained and the knowledge available has positioned the field to make a great leap forward. AMS is proud to present national experts from leading organizations who are paving the way into these new areas of opportunity.

Since 1967, Applied Management Systems, Inc.

has been dedicated to providing high-quality management consultation services exclusively to health care organizations across the nation.

In addition to expertise in supply chain management, our staff includes specialists in nursing, surgical suite, laboratory, diagnostic imaging, finance, management engineering, pharmacy, health information management and nearly every other functional area in the health care organization.
